Executive Summary
Principal Cloud Architect with 10+ years driving digital transformation across Fortune 500 enterprises. Expert in Kubernetes cluster gov ernance, multi-cloud architecture, and leading cross-functional engineering teams.

Technical Skills
- Cloud & Infrastructure: AWS, Azure, GCP, Terraform, Kubernetes, Helm, Docker
- Observability: Prometheus, Grafana, Datadog
- Languages & Frameworks: Go, Python, Bash
- Methodologies: GitOps, DevSecOps, SRE, Agile Leadership

Professional Experience

Principal Cloud Architect — CloudScale Systems
March 2020 – Present
- Spearheaded enterprise migration of 120+ microservices to multi-region AWS EKS clusters, reducing downtime to 99.99%.
- Formulated FinOps cost-governance strategy yielding $1.4M in annual cloud infrastructure savings.
- Mentored a global team of 14 DevOps and Platform engineers.

Lead DevOps Engineer — FinTech Horizons
January 2016 – February 2020
- Architected zero-trust CI/CD deployment pipeline handling 500+ production releases per month.
- Implemented automated compliance auditing for PCI-DSS using Terraform and Open Policy Agent.

Education
M.S. in Software Engineering — Carnegie Mellon University (2015)
B.S. in Computer Science — University of California, Berkeley (2013)
